Specifications for Outdoors

- Sculptures should be suitable for long-term, outdoor exposure, fabricated and installed in a viewer-safe manner. In addition, installation must be in a manner that is sensitive to the natural environment. Sculptures that need maintenance during the exhibition or that differ significantly from submitted images may be excluded.
- Works should not exceed 12 feet in height. The Town of Burlington will assist in installation, including concrete pads, if needed. It should be understood that this is a town-sponsored exhibit, so the work should be thought of in terms of a small town center, rather than an art museum. Additionally, politicized works will not be welcome.
- Works will have plaques with identifying information. Town insurance will cover damage to works up to \$50,000 and liability to the public.
